VIGILANT LEARNING ACADEMY

Curriculum Guide for Parents

Welcome Message

At Vigilant Learning Academy, we believe that strong partnerships between parents and the school are key to learner success. This guide outlines what learners are taught, how learning takes place, and how parents can support learning at home.

Curriculum Framework

Vigilant Learning Academy follows the South African CAPS curriculum, enhanced with modern teaching methods, technology integration, and academic support programmes.

Preschool Curriculum (0–6 Years)

Focus areas include language development, early mathematics, life skills, creative arts, and physical development. Learning is play-based with continuous observation assessments.

Foundation Phase (Grade R–3)

Subjects offered include English Home Language, Afrikaans or Sepedi First Additional Language, Mathematics, and Life Skills. Emphasis is placed on reading, writing, numeracy, and social development.

Intermediate Phase (Grade 4–7)

Learners are taught English Home Language, Afrikaans or Sepedi First Additional Language, Mathematics, Natural Sciences & Technology, Social Sciences, and Life Skills. A minimum performance average of 70% is expected.

Extra Academic Support

Morning, afternoon, and weekend support classes are offered when required. These classes are compulsory for learners identified for academic support.

Homework & Assessments

Homework is given Monday to Thursday only. Online and tablet-based assessments are conducted every Friday. Parents are required to monitor and sign homework.

Use of Technology

Tablets and online platforms are used to support assessments and learning. All technology usage is supervised and educationally focused.

Parental Responsibilities

Parents must ensure punctual attendance, active homework support, fee compliance, and regular communication with the school.

Our Commitment

We are committed to academic excellence, learner development, and strong parent-school partnerships. Sharp Minds, Bright Futures.
